

Xilio Therapeutics to Participate in Novel Immuno-Oncology Panel at TD Cowen 44th Annual Health Care Conference

February 28, 2024

WALTHAM, Mass., Feb. 28, 2024 (GLOBE NEWSWIRE) -- Xilio Therapeutics, Inc. (Nasdaq: XLO), a clinical-stage biotechnology company discovering and developing tumor-activated immuno-oncology therapies for people living with cancer, today announced that René Russo, Pharm.D., president and chief executive officer, will participate in the "Novel Immuno-Oncology" panel discussion during the TD Cowen 44 th Annual Health Care Conference on Monday, March 4, 2024 at 10:30 am EST.

A live webcast can be accessed under "Events & Presentations" in the Investors & Media section of the Xilio Therapeutics website at https://ir.xiliotx.com/. A replay of the webcast will be archived on the website for 30 days following the presentation.

About Xilio Therapeutics

Xilio Therapeutics is a clinical-stage biotechnology company discovering and developing tumor-activated immuno-oncology (I-O) therapies with the goal of significantly improving outcomes for people living with cancer without the systemic side effects of current I-O treatments. The company is using its proprietary geographically precise solutions (GPS) platform to build a pipeline of novel, tumor-activated molecules, including antibodies, cytokines and other biologics, which are designed to optimize their therapeutic index and localize anti-tumor activity within the tumor microenvironment. Xilio is currently advancing multiple programs for tumor-activated I-O treatments in clinical development, as well as programs in preclinical development.
